

NOTICE

23/05/2023

Students of all semesters of the college are hereby informed that the fees of different courses are clearly displayed in the college website. The total fees of a course is more or less equally subdivided among three years of study (One year consists of two semesters) for regular students. However, if a student repeats any semester, he/she will have to pay more than that. Students may verify the total fees of the course opted by them from the college website, not the fees of a particular semester separately.
