

World Bamboo Day

World Bamboo Day is a day of celebration to increase the awareness of bamboo globally. Where bamboo grows naturally, bamboo has been a daily element, its utilization has not always been sustainable due to exploitation. Environmental Activists aims to bring the potential of bamboo to a more elevated exposure – to protect natural resources and the environment, to ensure sustainable utilization, to promote new cultivation of bamboo for new industries in regions around the world, as well as promote traditional uses locally for community economic development.

18th September, World Bamboo Day is a mark of conserving our precious species. Sarsuna College joined hands with Greens Wildlife Lovers Forum.
